SKILLS

- Languages: C++ | C | NodeJS | React | MongoDB | Express | HTML | CSS | JavaScript | MySQL | Solidity | Git
- Soft Skills: Problem-solving | Analytical Thinking | Communication

EDUCATION

B.E -Information Science & Engineering : 8.11 Cgpa

2020 – 2024 | Bengaluru, India

BMS Institute of Technology and Management

Courses: Data Structure And Algorithms, Computer Network, DBMS.

Intermediate Aggregate: 92%(PCM with Computer Science)

2019 | Bareilly, India

Shri Gulab Rai Montessori Sr. Sec. school

High-School Aggregate: 10 Cpga

2017 | Bareilly, India

Shri Gulab Rai Montessori Sr. Sec. school

PROFESSIONAL EXPERIENCE

SDE Intern

03/2024 – present | Bangalore

Namaste Credit

As a backend developer Intern at Namaste Credit, a leading fintech company providing portals like DOS and CAM to clients, I specialized in Node.js. My primary responsibility was integrating third-party APIs for an insurance project, enhancing the platform's capabilities and user experience. I collaborated with cross-functional teams to ensure seamless integration and functionality, contributing to the development of secure, efficient, and scalable backend services.

Blockchain Content Writer

11/2022 – 12/2022 | Remote

blockSkillo

At BlockSkillo, an edtech startup, I created and wrote educational content on blockchain technology, covering fundamental topics such as consensus mechanisms (PoS, PoW) and Bitcoin mining basics. I developed a comprehensive course tailored for students, aimed at demystifying complex blockchain concepts and providing a solid foundation in this emerging technology

Front-End Developer

11/2021 – 12/2021 | Remote

Xtreme Technologies

During my internship at Xtreme Technologies, I developed skills in D3 for visualizing ocean data on 3D and 2D models, reverse engineering, working with the Earth NullSchool model, converting ocean map data to TopoJSON, and optimizing path algorithms with marine engineers

PROJECTS

Staff Management System

- Developed a Leave Management Module in the Staff Management System, enhancing and streamlining the leave request processes. This involved utilizing **SQL** for database management and **DBMS** technologies to efficiently handle leave applications and approvals.

Chat-App

- Developed a real-time chat application using the **MERN** stack and **Socket.io**, integrating features like emojis and avatar selection for enhanced user interaction.

NestAway

- Created a Web 3.0 NestAway clone using **Solidity** on the **Ethereum blockchain**, leveraging **HardHat** for efficient **smart contract** development and deployment.

ACHIEVEMENTS

PBL 6th Sem 1st Rank

07/07/2023

BMSIT&M

AvaxGod is a Web 3.0 multiplayer card game centered around power dynamics. It integrates the MetaMask wallet for secure blockchain transactions, ensuring transparency and security in gameplay and in-game purchases.

PBL 4th Sem 2 Rank

08/08/2022

BMSIT&M

Implemented a blockchain-enhanced online voting system with a secure Solidity smart contract on Ethereum, ensuring transparent and fraud-resistant voting processes.
